

To Whom It May Concern

5th November 2009

Dear Sirs,

We confirm that **Trans International Logistik Sdn Bhd (TIL)** has, since October 2007, performed various project logistics requirements on our behalf for the **Shell Qatar Pearl GTL Project** – the world's largest Gas to Liquids (GTL) plant.

TIL has undertaken the transport of all these shipments of project cargo by sea and air from various points of origin within Malaysia to Qatar safely and expeditiously, closely liaising with the many local suppliers and sub-contractors to ensure that the demanding requirements of the project for timely deliveries were adhered to.

We can confirm that we consider **TIL** to be a conscientious and experienced project logistics provider with whom we will be confident to work on our next project and we are pleased to recommend their services in this field.

Yours faithfully,

Colin Scot-Jackson
London Head Office Manager
